

YOUR IDEAL OUTLET MALL

It pays to add WLS to your team in the design phase of your projects! WLS has been lighting Outlet Malls since the 1980's. Whether it's LED products with 10 year warranties, cutting edge wireless lighting controls, or LED color changing facades, WLS can help you with all of your lighting needs.

While many city ordinances were written without the consideration to the uniqueness of Outlet Mall Development, WLS has successfully assisted developers with achieving lighting variances.
