

LED UPGRADE

POST OAK MALL

COLLEGE STATION, TX

Post Oak Mall is anchored by JCPenney, Dillard's, and Conn's Home Plus. Originally opened in 1982. In 2021, Post Oak Mall shopping center was due for an upgrade to LED lighting. WLS Lighting stepped in to help the client achieve their goals and create a value engineered lighting site plan and proposal for all new LED site lighting with site lighting controls. A total of 332 Metal Halide area fixtures were removed and 154 LED area fixtures were installed. The new site lighting fixtures utilized the existing site lighting parking lot poles.

Post Oak Mall is outfitted with our exclusive site lighting controls, netLiNK Controls. The netLiNK Controls System provides customers with complete insight and control of their site lighting and significantly reduces maintenance and utility costs by way of dimming the LED lighting fixtures. Users have visibility into their entire portfolio of lighting systems from any smart device at any time.
