

LED UPGRADE

**WAYNESBORO PLAZA**

WAYNESBORO, VA

OVERVIEW

In 2021, Waynesboro Plaza was scheduled for an upgrade to its exterior lighting. The previous HID lighting no longer lived up to the Phillips Edison standard. The client's goal was to increase the current light levels on the property's lighting using existing poles and locations. WLS Lighting stepped in to achieve our client's goals and create a value engineered lighting site plan and proposal for all new LED area, wall pack, and canopy lighting.
