

LED UPGRADE

PLAZA BONITA I WESTFIELD

NATIONAL CITY, CA

OVERVIEW

The LED upgrade for Plaza Bonita included replacing parking lot site lighting and parking garage lighting. The existing lighting ranged from 100W-1,000W MH and 112W fluorescent fixtures and was replaced with LED fixtures ranging from 25W-400W. WLS was able to redesign the parking garage lighting that allowed us to remove 50% of the fixtures. The energy savings from the LED upgrade on Plaza Bonita not only improves their bottom line, but enforces the company's green goals. Westfield Group is one of the world's leading retail center companies.
