

AUTO DEALERSHIP LIGHTING SOLUTIONS

CUT OVERHEAD TO INCREASE YOUR BOTTOM LINE

LED LIGHTING & CONTROLS SOLUTIONS

Lighting is a critical element in shaping customer perception of your dealership and product. WLS can modernize your existing facilities with LED lighting upgrades or partner with you from the ground up. Our **lighting maintenance program** allows dealerships to finance capital improvements as a maintenance expense, avoiding debt. Save even more energy and money with **netLiNK wireless controls**. netLiNK gives remote access to your property allowing you to control your lighting schedules from anywhere, anytime.

IMPACTS & BENEFITS:

Dealership & Customer Relationship

- Modernize the look of your property site
- Front-line optics make your product stand out
- Protects assets and increases customer safety
- Maintenance-free lighting solutions
- High-Output LED fixtures specialized for dealerships
- USA made lighting products

WLS: AUTO DEALERSHIP LIGHTING

ADVANTAGES:

Partnering with WLS Lighting

- Factory Direct Pricing
- Turnkey project upgrades and installations
- “Materials only” projects
